

Seafront Promenade and City Beaches

For those wishing to experience the true Mediterranean essence, we suggest a relaxing stroll along the 7km Seafront Promenade which links the Patacona to the Malvarrosa and Las Arenas the City beaches.

The fine sand and warm waters have received the highest environmental awards. The average annual temperature of 19°C allows visitors to enjoy the beach throughout the entire year whilst sampling the rich variety of typical Valencian dishes on offer at the prestigious local restaurants.

During the summer months the evenings and nights on the seafront come to life. Families and groups culminate to enjoy picnic dinners, drinks and games al fresco all along the promenade, enjoying the warm climate and sea air. A street market also helps to make the whole atmosphere vibrant.

Why not book your apartment on the frontline of this beautiful beach...
